PROFESSIONAL SUMMARY

Dynamic and results-driven Senior React Developer with over 6 years of professional experience designing, building, and deploying highly scalable enterprise web applications. Expert in the React ecosystem, state management architectures, and frontend performance optimization. Proven track record of leading cross-functional teams, establishing modern frontend workflows, and translating complex business requirements into clean, maintainable, and high-performing reusable codebase architectures.

TECHNICAL SKILLS

Core & Frameworks: React (v16-19), Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Semantic UI

State & Data: Redux Toolkit, Context API, Zustand, TanStack Query (React Query), GraphQL, Apollo Client

Styling & UI: Tailwind CSS, Styled Components, Material UI (MUI), Framer Motion, Sass

Testing & Tools: Jest, React Testing Library, Cypress, Webpack, Vite, Babel, ESLint, Prettier

Backend & Devops: Node.js, Express, RESTful APIs, Firebase, Git, GitHub Actions, Docker, AWS (S3/CloudFront)

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer

Oct 2023 – Present

Quantum Tech Solutions

Remote / Bhopal, India

- Spearheaded the migration of a legacy enterprise CRM dashboard from Angular to React 18 and Next.js, resulting in a 40% reduction in initial page load time and a 25% increase in user retention.
- Architected a shared, highly optimized atomic design component library using TypeScript and Tailwind CSS, standardizing UI patterns across 4 core company products and cutting developer onboarding time by 30%.
- Implemented advanced global state management using Zustand and optimized server state using TanStack Query, resolving critical race conditions and significantly minimizing redundant API calls.
- Mentored 5 junior and mid-level frontend developers, conducting code reviews, implementing strict CI/CD linting rules via GitHub Actions, and establishing automated testing workflows using Jest and React Testing Library.

React Developer

Jul 2021 – Sep 2023

Innovate Digital Labs

Bhopal, India

- Developed and launched a high-traffic FinTech application featuring real-time interactive charts, complex multi-step transaction flows, and strict responsive design metrics serving over 100k active monthly users.
- Introduced React performance optimization practices, leveraging `React.memo`, `useMemo`, `useCallback`, and dynamic code-splitting/lazy loading to achieve a 90+ lighthouse score across core landing pages.
- Collaborated closely with UX/UI designers to build high-fidelity interactive animations using Framer Motion while maintaining strict WCAG 2.1 accessibility compliance standards.

KEY PROJECTS

ApexAnalytics – SaaS Metrics Dashboard

Next.js, TypeScript, Chart.js, Tailwind

- Designed and developed an open-source real-time visualization platform tracking SaaS business operational metrics.
- Integrated secure WebSocket connections to handle high-frequency data streams smoothly without dropping UI frame rates.
- Built a fully customizable drag-and-drop dashboard interface layout utilizing grid systems and persisting user state.

EcoStream – E-Commerce Web App

React, Redux Toolkit, Node.js, Stripe API

- Built a comprehensive retail marketplace platform implementing headless CMS infrastructure and robust client-side state logic.
- Integrated Stripe payment processing pipeline with comprehensive server-side webhook tracking and state reconciliation.

EDUCATION & CERTIFICATIONS

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Graduated: June 2021

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV)

Bhopal, India

Certifications: Meta Front-End Developer Professional Certificate • Advanced React Architecture (Frontend Masters)
